Instructions to Faculty Mentor/Research Advisor

The student listed above seeks to join the 2021 CCBS Summer Institute (CUSI), at The Ohio State University. CUSI is an interactive program comprised of research talks and professional training and development workshops for promising undergraduates who may pursue research careers in academic or industry settings. The research content spans the various sub-disciplines of cognitive and brain sciences, while the training and development workshops cover topics including writing, being an effective undergraduate researcher, applying to graduate school, and promoting/sustaining diversity in the research environment.

Our goal is to complement your students' in-lab research training with career development, while connecting them to a community of like-minded hard working and talented individuals.

CUSI will convene from 10 am to 1 pm, for eight consecutive Mondays, from 6/7/21 through 8/2/21. CUSI will not meet on July 5th in observation of Independence Day.

The purpose of this form is to verify that the applicant named above will be participating in summer research and has your support to join our program during the times provided. Please be advised, your home unit is responsible for hiring the undergraduate students who are working as a Student Research Assistants in a faculty member's research lab for the summer and/ or processing appropriate volunteer paperwork. Please respond to the questions below and either return to your student or send directly to Stephanie Fowler (contact information provided below).

Please check the respective boxes on the left if you agree with the following:

- The above named student will serve as an undergraduate researcher in my lab for a minimum of 10 hours/week (or total of 80 hours), for the 8-week period of Monday, June 7th through Friday, August 6th.
- I support the above named student's participation in CUSI activities which will occur for 8 consecutive Mondays, from 10:30 am to 1:15 pm, during the weeks of June 7th- July 26th 2021.
- I am currently a Member of the Center for Cognitive and Brain Sciences. (If you are not a member, we will follow up with more information about the Center and instructions for how to affiliate with us.)
