

Application Deadline: April 28

SECTION 1: SCHOLARSHIP OVERVIEW

The Center for Cognitive and Brain Sciences is pleased to offer funding for the 2024 CCBS Undergraduate Summer Institute (CUSI). Undergraduate students applying to the CUSI program are eligible to compete for a scholarship for research participation in the months of June and July of 2024. This support is intended to provide students working in unpaid research positions at OSU with the opportunity to gain financial support. CCBS awards cannot be deferred to any other session or year. Students with interdisciplinary interests are encouraged to apply for this award.

SECTION 2: APPLICANT FUNDING INFORMATION

Select the statement that best reflects your summer funding:

- I have partial funding during June-July, and I would like to compete for a scholarship. Funded amount: \$ _____
- I have no funding during June-July, and I would like to compete for a scholarship.

Please submit these additional items to be considered for a scholarship.

1. Proposal of your summer research project, 1-2 pages single spaced
2. Letter of support from your research advisor, maximum 1 page
3. Optional, Adversity Statement: Academics and extracurricular achievements can be impacted by a number of challenges. For example, students who hold regular employment or who are first generation college students may not have the same access to opportunities and support as students from other environments. Adversity can shape who you are and what you have to offer your peers. If you have faced any significant adversity in life or school, please describe it here. (maximum 300 words)

SECTION 3: APPLICANT AGREEMENT

By signing below, the applicant certifies that the information provided above is correct. The applicant understands that CCBS has a limited number of scholarships and requesting aid does not equate to receiving it. All requests for aid will go through a review process to ensure the applicant is eligible to receive funding from CCBS.

Requests for aid will not impact a student's chances of being accepted into the CUSI program. CCBS is not responsible for providing placement in an OSU research lab during the CUSI program. Students must be admitted to the CUSI program in order to receive a scholarship. If a student receives a CUSI Scholarship from CCBS, they are expected to attend all 8 sessions of the CUSI program or risk losing the award. CCBS awards cannot be deferred to any other session or year.
